

# E MUSIC PERFORMANCE

GREENWALL, 8:15PM, FRIDAY, MAY 15, 1992AD

**Brian Clark**

**Pat Fail**

**Damien Hennessy**

**Chad Lembree**

**Ned Mooney**

**Randall Neal**

**Aaron Sylvan**

**Jennifer Young**

**and others**

12.6

ified diagram of frequency modulation.

Figure 12.6: A block diagram of a frequency modulator. The diagram shows a feedback loop starting from a 'Modulator' block, passing through a 'lookip' block, then a 'Mult Div' block, and finally a 'Mod' block. The output of the 'Mod' block is fed back into the 'lookip' block. There are also several other blocks and signals: 'F\_INC', 'MOD\_INDEX', 'WF', 'AC', 'B to up', and 'INC'. The diagram is partially obscured by the names of the authors.
