

To the Community

For the first half of the term SEPC has been considering financial problems, primarily, and has shared in all EPC recommendations on these matters; we began deliberations with no presumptions of power and no assumptions with regard to policy.

Our agenda for the rest of the term is drawn partly from difficulties that have arisen with the recent crises and focuses upon structural changes, educational reforms and the function of SEPC. We will be considering:

- 1.) Changes in curricular structure
- 2.) Mid-term comments--their uses and effectiveness
- 3.) Grades
- 4.) Possibilities of SEPC recommending legislation
- 5.) Defining the status of SEPC within the classroom and in terms of policy and politics within the community;

Our goal this term is to gain the confidence of the students we represent in order to operate efficiently and upon strong foundations; to this end we request that students interested in any of the above matters--or in anything else that seems appropriate to SEPC--contact any of the representatives listed below; we would like information, suggestions and labor.

Our immediate agenda deals with a questionnaire on structural change that is being drawn up this week; it will be presented within the next two weeks to the student body. Any one interested in helping with this project please contact Ellen Pollack.

S.E.P.C. Representatives: Art- Robin Bruch, Linda Lawton
Dance - Erika Bro, Cathy Weis
Drama - Alan Holzman, Beth Skinner, Kippy Dewey,
Judy Gershman
Literature - Pat Crain (Chairman), Kathy Girard
