

THE BUZZ ...

In the past, The Buzz was used as a way to share student work and voices with the campus. Although I shared interviews with individuals, I never compiled answers students gave to the same questions. Here are some student responses to the following question.

What would you like to see grow at Bennington?

Social justice. I would like to see more course offerings dealing with social justice and environmental justice. I would also like to see more applied work in social justice, and especially engaging our local community in these discourses and projects. - Eli Calhoun

I think we need to have more conversations about sexual harassment and sexual violence on campus. Bennington is not utopia - sexual violence exists everywhere. - Adityajit Kang

I want the Bennington Community to grow and become everything our founders dreamed of. A community of students, staff, and faculty who come together on this campus to learn and to do, and who support each other to the best of their abilities. Where all members of the community can achieve their full potential, regardless of background, and where apathy does not exist.

- Dylan O'Hara

I would like to see more classes about non-Western topics, something that is slowly but surely happening at Bennington. Also, more conversations about student mental health.

- Prashansa Taneja
