Dear Trisha:

Thank you and Lisa and Eva and Steve for being here for the project, and excuse my tardiness in writing. Also the brief amount of time I was able to give.

Students were very excited by both the workshop and concert. People keep coming and asking for more! There's much talk of how work is put together. My best fantasy is that "Locus" is an alchemical sieve out from which one can definitely squeeze some gold!

We are just about to start more work on the video tapes, and I wonder if at some point you and Steve (Paxton) could add voice-overs on the footage of your "Dialogue"--maybe. I also gather that the W.G.B.H. video shoot is likely to be on for July. It sounds good.

Meantime its spring and green.

Sincerely,

Tony Carruthers
