Hi -

Quick thoughts - altho' my mind is ceasing to
function, -

- ① - Approve Nelson as possible temp. replacement
for you - glad division might approve -
but when & how long will u be gone? (Help!)
- ② Replacement list sure does play SAFE! (could it
be that Photo is the closest next in line to
Maisha!) - and i'm not sure that Steve our
secretary for Z yrs is going to do anything for the
division - but maybe he'll surprise everyone - &
should get lotsa taps - dancs.
- ③ Re: Patrick's contract - i had indeed submitted
my recommendation - i've also written Don Brown
for clarification and also to Pat. No response
from either - not surprised - Also asked Don
for information on my request for Jackson
contract funds and on clarification of my own
term of contract. Have written twice and got
one letter back completely ignoring any of
the topics! Stuffing changes -

(2)

I knew Pat was having teaching problems (from various students before I left) - but don't think it helps if his attitude is that 'staycraft is boring' - Also have had some small feelings about his wish to control all budget (glad De m will get to talk - also agree with him that Dana is not so much irresponsible as underdeveloped!) - Pat's main problem is that he tends to hide behind a good barrage of technological positions! Hope you was able to talk with him - but GRAD 4 U that U R Free of the Responsibility of Secretariatship! -

(4) - Yr sister hasak shown up - but she's indeed welcome to make contact if around this way -

(5) - Just got Joe's letter to the board bowing out as Prez - what does that leave everything?!

(6) - Write Chris Johnston - who is going to contact Seattle Arts Council about possibilities - I may try to get up there for a couple days end of the summer - Also have delayed Paris until Fall -

(7) - Not had any info. forwarded from Cameroon - I realize everyone's busy - but do need some facts - (wall space, print dimensions, numbers etc) if am to try to move anything further this

end - Time not too pressing - but if u speak w/ him, give a nudge -

(2) Hear Sally may be over for the Dance Umbrella season -

(9) - Things have gone slow, COVID and no sale on the man's house - the market is dead - and am getting concerned with time etc - 1/2 yr gone - and i don't like the idea of getting stuck here as things are dreadful - educational and arts cuts in full swing -

(10) - Wuz in Amsterdam - got some work into Ark & Projects - and invited to show tapes and make one at the Bank in the 'Fall so if can work funding will do so - various old friends still in that city - Almost ran into David & Valda here, but found em briefly at Riverside Studios -

(11) - Did the visiting committee in Dance actually submit a report - if so what was said?

(12) - I hear Walter Terry wuz dead.

Luv. TC .
