

12/13/84

Dear Wendy, the latest on Judson is that college usage has switched from a Beta → VHS format - meaning Dave Beach ~~has~~ either hasn't had the

time or found it unnecessary to complete the assembly of $\frac{3}{4}$ " decks. Our latest communication revealed that he would have time to do this after the New Year; of course studio usage is now also booked completely. I remember you saying there was a time-limitation on Judson funds - if there's a problem we should talk right away and try to make other plans. Realistically the college is the only place to do this - ^{final stage} I'm a bit at my wits end in trying to nudge, budge, push Dave Beach to move any faster than he will - moving all those ~~copies~~ TBC copies to an outside studio to make Dubs should remain our final option so I'll persevere in getting Dave

to get the machine together. I plan to be in NY @ Jan. 19th
so I'm hoping I could bring the Dubs with me then. Call
me if there's any problem with this.

I was sorry to miss your collaboration at
Damspace - I couldn't get any more time off work -
hope the results were satisfactory. My Best,

Meg
