Proposed change in the Community Standards of Bennington College

Under Campus Regulations section II A, "Guests at College":

Men will be allowed in student's rooms only between the hours of ten a.m. and six-thirty p.m. This does not apply to student's families, although it is advisable to notify one's suite when male members of the family are to be in a student room at any other time.

It has been proposed that this regulation now read:

Men will be allowed in student's rooms only between the hours of ten a.m. and six-forty-five p.m. This does not apply to student's families, although it is advisable to notify one's suite when male members of the family are to be in a student room at any other time.

The change has been underlined in pencil
