

April 1936

EXHIBITION OF WATER COLORS BY MARY COLES

Mary Coles is a young American painter who received her most formative art training in Paris with André L'hote and in the Academie Colorassi. Before Paris, she was graduated from Smith and had studied with Hawthorne at Provincetown.

She is interested in light and in design and has abundant technical ease with which to concentrate on these two interests.

Nearly all these water colors were made in Mallorca where Miss Coles has been living for the past few years. They are all for sale at the prices listed below.
