Dear Helen,

Thanks for the Magazine. Emily's piece on Marion is superb---nobody else could have done it so beautifully. And I'm glad you used the Mamma Noah picture, which I like very much. Thanks a million for doing all this. We're putting the Magazine away with our few keepsakes.

Honora and Evan will be staying here at least until next summer. It seems to work out OK for them. They're both writing and they find this rural slum a good place for that. Sometimes they hit NY to see friends or make "contacts", and Honora still has lots of friends around here. Right now Evan's mother is in a NY hospital for cancer treatments---not fun for them. Harv comes up now and then, seems to like his job. I'm taking off January 15, will be back toward the end of May. Let's try to get together then.

Love to you and Paul

Francis

PS--I think you sent me Emily's Noah picture by mistake. I'm sending it to her in your care. Would you please forward it? I've lost her address
