

# OCEAN

2014 ROBERT H. WOODWORTH LECTURE IN THE SCIENCES

# APOCALYPSE

Overfishing, pollution,  
and climate change are  
laying the groundwork  
for a massive  
transformation of  
the oceans with dire  
implications for  
biodiversity and  
human wellbeing.

MARCH 13 2014

CAPA SYMPOSIUM 7:30 PM

**JEREMY JACKSON** PhD

Smithsonian Institution and Scripps Institution of Oceanography

People are the problem and saving the oceans and ourselves  
will require fundamental changes in the ways we live and obtain  
food and energy for everything we do.

Supported in part by a grant from the Davis Educational Foundation.

Free and open to the public. For more information visit [www.bennington.edu](http://www.bennington.edu) or call 802-440-4460.
