Memorandum to all members of the community  
from Edith Stewart, Secretary of the College

The following amendment to the Constitution, originally drafted by the Community Council, has been proposed for adoption by the Faculty. It may be voted on after a two-week period has elapsed, i.e., on or after Friday, March 28.

Proposed Amendment to Article V of the Constitution  
Adding a New Section to Constitute the Community Council

6. There shall be constituted a Community Council whose function it shall be to facilitate communication among the various organizations of community government and constituencies of the college. As part of its role, it shall serve as a forum for the consideration of issues of general community concern. Issues for consideration by the council may be presented to it by any individual or committee in the community.

This Community Council shall be composed of the President and the Dean of Studies, acting ex officio; of three members of the faculty, one of whom is to represent the Faculty Educational Policies Committee; and of five members of the student body, one of whom is to represent the student Legislative Council, one to represent the Student Judicial Committee, one to represent the Student Educational Policies Committee, one to represent the Student Executive Committee, and one to be elected at large from among the student body.

All members of the council who serve as representatives of committees of the college shall be designated by those committees and may serve as long as they remain members of those committees, but no longer than one year without redesignation. Members elected at large shall be elected for a one year term.

The council is to hold at least one community meeting a term and as many open meetings as seem necessary and appropriate.
