Ref: Video - is the intro. (Beach course) being given. I did agree in a memo of about Feb. last year (and following on meeting with Dave & Pat before I left) that it was necessary for students to do this intro - So must sure what that got to -

Ref: Other Staying - Always felt it had a limited curricular life as a critique of modernist practice - one can re-write Michael Ford's dictum "Art degenerates as it approaches theatricality" as "Theatre degenerates etc-etc!!" - Thus I came to ask myself if in the ~~era~~ (or non E.R.A.) of Reganomics - isn't somebody a bit more about doing the job - required....

(Today Mr Thatcher's gang ride into the Falklands (Gilbert & Sullivan composed it of course) - ironic since the really British fascist (crypto) dictatorships - so many courses addressing speculative topics are indeed a bit passé -)

How did yr N.Y. concert go? - I'm doing a tape on Riverside and a project at the A.A. in Utopia (the final speculation!!!!) - Theatre in Eng. sucks! Love and Peace -

#1 -

subsequent to our phone talk (ah Mr. Ben!)
I've sent me stuff etc and press cuttings etc
which is all just find and seems to deal with it all
plus of course he'd talked with Val.... I fully understand
any feeling on his part that he might have been side-
tracked - But it wasn't intentional this end - indeed
I obviously don't have time involved - in space - and was
concerned that a possible Europ Ind (no Euro-Ind)
tour for exhibit might be useful for him re: contacts,
galleries, etc - So hope it all pans out. Riverside
has some slightly different internal politics (between the
art curator & the programme admin!) which Val. quite
understands & is best to negotiate -> Yeh -
Cynthia (Hedra) is terrific - agreed - and would love
to have Ben at the event but will eventually hope
to see the tapes (Lucinda did do it. then - good.
David I was pretty sure wouldn't.... we should never
have let him play work video for a couple of days!)
— O.K.... re. Big Ben, yeah I do expect to
be doing my gig again in the Fall - my memo
to divisions was quite seriously meant - I would
indeed like courses to be better integrated with
(my) whatever —
