Dear Helen,

We're having glossies made of the Mamma Noah picture, and also of two pictures from Electra. Those may be too dark, but you can take a look at them anyway.

This morning I got some tiny colored photos of Marion in a bunch of people, taken about a year ago. They are much the best I have of Marion, and we'll try to have them blown up. If that works in time maybe you'd like to see the result.

The man says we can have the Noah and Electra shots in a week. We'll send them to you as soon as we get them.

I'm still hoping to see you and Paul before Jan. 16, when I fly to PR.

love to you both

*Francis*
