Dear Dick and Bret,

This is just a short note to tell you what a good sculptor Anna and I think David is. We toured the Visual and Performing Arts building recently and were struck by the beauty of three pieces of painted, bent steel sculpture. Only much later did I realize that the work was done by your son. You should be proud of his ability.

I plan to be in San Francisco on January 5 for a symphony concert that will premiere a work by Vivian Fine, one of our composers. It would be nice to see you there.

With warm regards,

Sincerely,

Michael Hooker
