

BENNINGTON COLLEGE
Commons Cafe
Ceiling Design Project

We are excited to announce that the new Cafe space on the first floor of the renovated Commons building will incorporate a collection of 50 unique, custom light fixtures, designed and fabricated in a collaboration between the architectural design team and Bennington visual arts faculty and staff members Jon Isherwood and Michael Stradley. These fixtures will be arrayed in a pattern to create the ceiling over the bakery and server area, becoming one of the defining features of the space.

We would like to invite all members of the Bennington community to contribute to the generation of the form for these fixtures as part of the design process. Just follow the directions below-- 50 entries will be selected at random and used as the basis for the design of a unique fixture. Contributions will be acknowledged as a permanent part of the space. Enter now, and stay tuned for updates in the fall.

INSTRUCTIONS

Draw a line, curve, or profile between the two dashed rings shown here

Your drawing must be a continuous path and cannot cross itself

Make sure to include the author(s) name

Return to Office of Student Life or designated collection box in Dining area. Deadline 6/1/2018

Drawn by (name):

- ☐ Student • Class Year: _____
☐ Staff
☐ Faculty
