Minutes of the Meeting of the Literature Faculty

November 1, 1949

- I. Stanja Lowe has been authorized to work temporarily with Mr. Sundgaard on her thesis. The quality of the thesis is nevertheless expected to meet the standards of the literature faculty.
- II. The literature faculty resolved that, starting next year, all literature majors will be expected to have a reading knowledge of at least one foreign language. This requirement is to be fulfilled before confirmation of major, and evidence of adequate knowledge given to the literature faculty at that time. This statement, or a statement to that effect, should be put in the catalogue in place of the current statement, which recommends the knowledge of a foreign language without requiring it.
