College Week

Career Development, Field Work Term, Student Employment

Come see us! Find us in Barn 112, just across from Barn North.

Student Employment

Several campus positions remain, including two positions working with the President's Office: Diversity & Inclusion Intern and Frost House Intern. There are several off-campus Federal Work Study community engagement positions still available. Details on the positions can be found on Handshake. These positions favor applications with strong materials; if you would like help with your applications, book a resume/cover letter advising session via Handshake. If you have questions about a job, contacting a supervisor, or anything else related to campus work. email campusiobs@bennington.edu or set up an appointment with Ray.

FWT Due Dates: Fall Term 2018

- Friday, November 9: FWT registrations due on Handshake for site work, independent studies, entrepreneurial options, and professional trainings (no extensions). This is also the deadline for the partial need based grant application available to high-need students, information can be found on the FWT Funding webpage. As you may wish to consider budget factors when registering your FWT, please find more information on funding your FWT webpage
- Friday, December 14: Last day to add or change an FWT position

First Year Students:

- Resume review: If you have not already had a resume/cover letter review session, as was expected for all first years by Oct. 12th, you should **book now through Handshake**. Starting out with a strong resume and cover letter is the best way to increase your chances of early Field Work Term hire.
- Handshake profile: All first-year students were required to set up a Handshake profile and apply to at least one opportunity by October 15. As a reminder, students who already know that they plan on applying for a summer deferral can skip this step and instead submit a summer deferral application. Students who wish to apply to an employer outside of Handshake should indicate that they have done so by first emailing fwt@bennington.edu. Students who already have FWT work secured can skip this step and register on Handshake.

Career Exploration Service: Strengths Assessment

Part of landing a job is knowing and focusing on your strengths. Clifton Strengths for Students is an online self-assessment tool that helps you to see your core talents and how they can help you navigate the world of work. Students who book a Career Exploration appointment on Handshake will be emailed a free access code.

Field Work Term Fellowship Awards

We are delighted to share that 22 students each received \$1000-\$3000 from the Arts & Technology Fellowship, Entrepreneurial Fellowship, and Public Action Student Fellowship. Collectively, this student work represents important artistic intersections and innovations towards social change. The Lucille Lortel Fellowship in Theatre awards will be determined this week.

Handshake tip of the week

Any Handshake search can be saved as a daily or weekly job alert, allowing you to get notified when new jobs are posted that fit your criteria. After entering your search in the jobs section, just click "Create Search Alert" on the right hand side, and click the pencil icon to edit whether you want weekly or daily alerts. For example, run this search for current paid FWT listings, and create a search alert to be notified when new paid opportunities come on.

Tech Tip of the Week

Many students (and faculty and staff!) may find themselves needing to brush up on their technical skills in statistics throughout their careers. One compelling resource to help supercharge your data skills is the online web site Data Camp, www.datacamp.com. With both conceptual learning modules in basic and advanced statistical concepts and data visualization, as well as practical tutorials in R and Python to support data analysis, Data Camp is an online, interactive tool that you may find useful. There is a \$30/month fee for individual licenses, but classes at accredited colleges can apply for a free, semester-long license for their students.

Follow the Tech Tip of the Week collection on Google Plus for more information and access to archived tips.
