

GALLEY

May 7, 1969

Monday night's meeting was pretty instructive. The main thing that came out of it was the need for all students to get together on unified plans, suggestions and/or demands. It is very important that a lot of people are involved in setting up such proposals.

Therefore: Every student, PLEASE, come to an open meeting for students only

This Thursday night  
7:30 Commons

To propose a unified group of perceptions, suggestions etc. to improve the community, especially in terms of academic issues.

Some ideas:

1. Student desire on 3-4 course norm issue
2. Film and Photography (and other courses we want)
3. A clarification of who the decision-makers are

What emerged from Monday night's meeting is that FEPC makes a lot of the decisions (not the President). In order to get change, we have to be together. If we can write a list of proposals, it can then be added/submitted to and with SEPC, FLPC, LEG etc.

Please, let's use our constitutional power.

P.S. The faculty and administration are NOT invited.

D. S.
