

# Dr. Caro-Beth Stewart

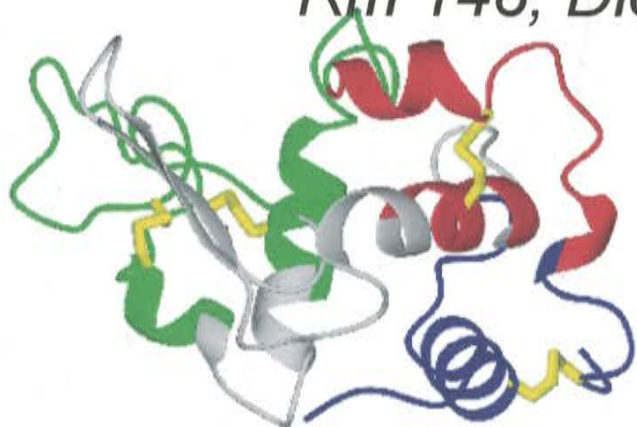

Department of Biological Sciences  
University at Albany, SUNY

Research Seminar:

*Adaptive molecular evolution in the primates*

4:00 PM, Monday 12 May

Rm 148, Dickinson Science Building  
Bennington College

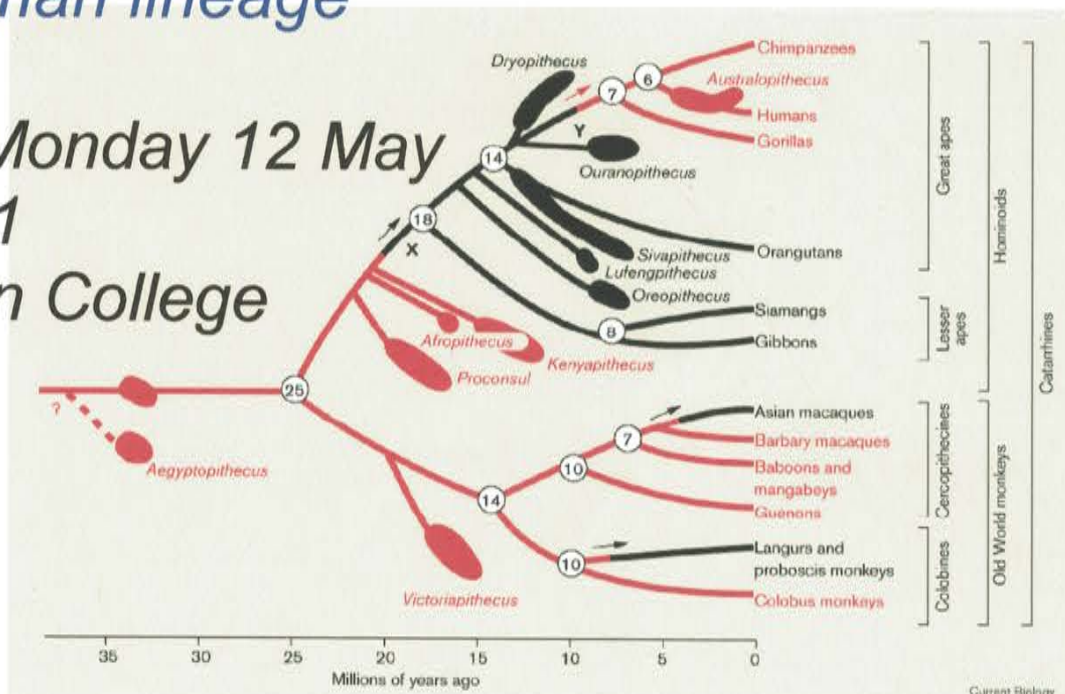

Evening presentation:

*Detecting important genetic changes  
on the human lineage*

7:30 PM, Monday 12 May

Barn, Rm 1

Bennington College

Both talks are free and open to the public.

The afternoon talk will assume more technical background.
