Mr. Carleton G. Howe
Dorset, Vermont

Dear Mr. Howe:

I'm sorry we had a poor connection when you returned my call this evening. As I was trying to convey through the obstructions, Mr. Ruebhausen and Mr. Fels suggest that the Building Committee be one of those holding advanced meetings. We can set that meeting at any time you wish. It is because of the two members from New York, Mrs. Muma and Mr. Tishman, that I suggest the afternoon of Thursday, October 16. The first activities of the Board meeting begin that evening with a dinner for the Student and Trustee Educational Policies Committees and Trustee committee meetings start at 9 o'clock on Friday morning.

The items listed so far for your committee are

- Summer work done - work to be accomplished this fall
- additional work to be done on deferred maintenance
- addition to the Brant House
- Lockwood-Greene report on the heating plant
- discussion of the renovation of Commons
- preliminary discussion of use of the Barn space vacated
when the Library is moved

This is quite a schedule and I think the committee may want to have time to see some of the buildings.

I'll be glad to write members of your committee about the meeting. I'll send out notes on Monday next, calling the meeting for 2 p.m. on Thursday, October 16, unless I hear from you before the end of the day. We plan to mail materials in advance on at least part of these topics. I know that Stanley Pike will be helpful, as always, and I'll be glad to do anything I can.

You'll be interested to know that the first concrete was poured today in the Library construction.

Sincerely,

Edith Stewart
Assistant to the President
