Joe Murphy

Stephen Haynes was in asking about how much progress, if any, we've made with regard to the Black Music space in Commons. It's my understanding that we've had all kinds of committee meetings and some kind of plan has been developed. Would you kindly drop me a note with a copy to Stephen indicating either a) what has been done, b) what is to be done, c) when it is to be done.

Thank you.

P. S. Have we scheduled capital monies for the rehabilitation for those areas?
