

Birmingham College
September 12, 1940

A special meeting of the Health Committee was called on September 12, 1940, in Dr. Chassell's office to discuss the case of poliomyelitis on campus. Those present were Dr. Chassell, Molly Stinson, Jean Short, Dr. McCullough and Miss Peplow. Peg Stein was absent.

Dr. Chassell wanted the opinion of the committee on how to break the news to the campus. It was decided that an announcement by Molly during lunch hour might be the least startling. A list of symptoms will be posted on the bulletin board and included in the College Week. Dr. Chassell will write a letter to parents of the students and try to calm down any possible hysteria.

Respectfully submitted.
