RE: CAROL CHANNING

Had a phone call this afternoon from a very delightful Mr. Lowe, Carol's husband. He wanted suggestions on how to travel quickly from La Guardia to Bennington. Of course, I suggested Bennington Aviation. He and Carol have to come up on the 8th of June for the graduation of their son from Williams and would like to use Benn. Aviation for both trips. He assured me ~~(after some assurance that the number of people who would be disappointed~~ (after some convincing on my part) that he and Carol would stay over night AND that their son would be coming too.

He asked if we would provide information (letter form) on other gals in Carol's era who have completed the requirements for a degree in Absentia. Apparently, she definitely plans to do so herself, but he felt it would help if we could provide a bit of encouragement via case samples. She would want to complete her degree in PAINTING !!!!

Along the same lines, they would like to know who and what's going on in both here at B'ton. dance and Painting. (would seem to me that a catalog would do?)

If you ask me, sounded like a hint for an honorary degree.... but he was not the least bit overbearing. He was thoroughly D E L I G H T F U L! What fantastic publicity for Bennington to have CC finish her degree here! That would mean she would be back again NEXT year for graduation! ha!

WILL TELL YOU MORE.....
