

Bennington Banner -- Population Health Fellowship

Natalie Redmond – Media Relations

October 7, 2020

Hi all,

I wanted to share this [Bennington Banner article](#) about the College's upcoming Population Health Fellowship, to be offered in connection with SVMC. (Our original press release is posted on the Newsroom [here](#).)

The article ran on the front page of this weekend's print edition. It also mentions the Fellowship's tie-in with the Mellon Food Insecurity research, as well as its similar cohort structure, ala Museum Fellows Term and Lortel Fellowships.

Thank you to Sarah and Faith for their work setting up the program on our end, and to Faith for speaking with Patricia at the Banner.
