

COVID Update

Bennington College - COVID Taskforce

Wed, Nov 3, 2021

BENNINGTON COLLEGE

Dear Bennington Community,

Thank you to everyone who is complying with the COVID guidelines, including weekly testing.

The student with COVID has been released from isolation. We do have three new employee cases. These cases do not appear to be related, and contact tracing is happening now. As a reminder, anyone identified as a close contact will be contacted by me. Close contacts that have been vaccinated do not need to quarantine and are free to go about their day.

As a reminder, masks are still required for everyone in indoor spaces, except private spaces. This means in classrooms, house common areas, and dining hall lines.

Below are the latest updates from the COVID Taskforce.

—Ali Tartaglia, Chair of the COVID Taskforce

Testing on Thanksgiving week

There will not be any rolling testing Wednesday through Friday of Thanksgiving week. If you would like to be tested that week—especially before any planned travel—please schedule your test via CoVerified for Monday or Tuesday, 8:00 am-11:30 am and 12:30-3:00 pm.

Booster Shots

Please see the [attached flyer](#) from the Rutland NAACP about boosters.
