Videotaping seven evenings of Black Music  
Concert this month.

The Black Music Division is having a concert which they want to videotape. They have been buying their videotape through the Dance Division. I herewith authorize an expenditure of \$200.00 to cover the costs of videotaping their concert this month. After June 30 they will receive the same budget for OTTS as they received this year. However, I'm authorizing them to borrow against the holdback some sum appropriate to allow for the purchase of videotape thereafter. The purpose of this is both to allow them to do the videotape of the concert this month and to be able to purchase videotapes during the summer for other similar kinds of activities. Let me know if you have any difficulty with this.

Thanks.
