Meeting Structure

Lauryl provided a lot of great resources last week!

- Meeting structure: Check-in, agenda proposal and finalization, continue through agenda items, set up next weeks agenda, end check-in

Tool Bag (sack?)

- Go-round: quick check-in
- Fish bowl: two circles, inside speaks, outside listens about topic-new perspectives
- Break out groups: talking in small groups
- Spectrum Stance: Gauge interest on an item-physical activity
- Hand signals: snaps, temperature check, straw pole, direct response
- Decision making: consensus (-1,-2), majority
 - How do we go about making any decision?
 - What needs to be decided on consensus: start with can anyone not live with this, it not, then we move forward
 - Keep our other decision-making processes in our tool bag
- The fridge: too large of issues to discuss at the moment, put things on ice until people are ready to talk about that
- “Can anyone not live with that”, “Is anyone not ready”
- *Be more intentional with our process
- *Name what we are doing
