Dr. Lewis Webster Jones  
Bennington College  
Bennington, Vermont

Dear Dr. Jones,

enclosed please find two tentative outlines for my two courses. If you or members of the faculty dislike them, want them changed, elaborated upon or specified, please let me know. I shall be very glad to make any changes you might desire.

I must ask you to have the book titles checked; I took them mostly out of my head as I have no library immediately available. I am pretty sure of most of them; but some may be incorrect or inaccurate. Altogether the book list for the first course - the basic one - is far too long. I put in all the books partly because I do not know whether all are available; even if the less common texts should not be in your library there would still be enough left for the course. Partly, I wanted you to edit the list - to indicate your preferences etc. So, please do not hesitate to cross out what is either not in your library, or what you would consider inadvisable for freshmen.

The second course is, I think, self-explanatory.

With best regards and looking forward to seeing you soon, I remain

Very sincerely yours

*P. F. Drucker*
