

JOINT MEETING OF MEMBERS OF COMMUNITY COUNCIL, RECREATION COUNCIL,
E.P.C. AND THE GENERAL MEETINGS COMMITTEE.

Last week at this time we held a meeting to discuss ways of helping to integrate our college community-making it less divisional, more of a unified community. Something surprising and quite unexpected happened. We all came to the conclusion that part of the solution to this problem might be realized if the functions and relationships of our various committees were either ~~redefined~~ or changed. Instead of the fault being the communities it seemed to be partly ours. Realizing this we held a meeting on Wednesday, of the heads of the General Meetings Committee, Recreation Council, E.P.C. and community Council, and were ably directed and helped by Miss Shealey. It was decided there that we would each draw up a report on the personnel, functions and tie-ups of our separate committees. These were then mimeographed and I hope you all have a copy of them in your hands at the present. The reason for our meeting this afternoon is to get a pool of all your ideas, for all of you are members of at least one of these four committees. I hope all of you will feel free to speak up freely and I hope by the end of this meeting we will have drawn up a more workable and cohesive plan of procedure for our committees.

First of all let us read and discuss the report of each committee, see wherein the failings of the committee lie, and then suggest changes that might be made which would improve this committee, ~~as~~ in regard to its personnel, functions, or relationship with the other committees.
