

December 31, 1958

Mrs. George A. Ellis
Old Bennington
Vermont

Dear Peg,

I'm sending you copies of a letter from Frederic Day of Carl Koch & Associates and the first of the preliminary studies for an Arts Building. These are, of course, just the rough beginnings, but I know you'll find them interesting. I'm going to ask one or two members of the Art Division to study them and comment.

I'm off to Kansas City this weekend to speak to the Association of American Colleges on "Women's Colleges in the Pursuit of Excellence," a subject they gave me. I'm going to tell them I've been running after excellence so fast and hard that my tongue is hanging out.

I hope we'll see each other before you go away.

Happy New Year,

William C. Fels
