Health Services: A number of colleges are having outbreaks of measles. This illness can be very serious in adults. Many people in the college age group haven't been exposed, immunized, or received the early, less effective measles vaccine. All students who have not shown evidence of effective vaccination will be receiving a note to that effect in their mailbox. Please take this seriously and stop by the infirmary to arrange proper immunization.

The Health Service is open Monday through Friday from 8 a.m. to 11 p.m. The Saturday and Sunday hours are 3 p.m. to 11 p.m., except on vacation weekends. Security should be called when the Infirmary is closed if emergency medical treatment is needed. The Health Service is staffed by four physicians. In addition to the Director Nancy Scattergood, MD., and her associates Richard Barad, MD, and Edd Lyon, MD, a fourth physician, Barbara Raskin, MD has been added to the staff this term. Appointments with the doctor can be made by contacting the nurse on duty or the Health Service secretary in person or at extension 220 or 285. If an appointment cannot be kept, the Health Service should be notified in advance.
