

Community Meeting

A Community Meeting was held in the theatre at 1:45 on Thursday, May 25. Elizabeth Shurcliff presided.

The following points were brought before the meeting:

1. There should be no smoking on the third floor of the Commons.
2. There are prowlers on the campus which makes sleeping out dangerous.
3. College material should not be used for sleeping out over night. Any student so doing will be fined five dollars.
4. It was suggested that sun bathing be restricted to the further side of McCullough House and that bathing suits and kerchiefs be used only for this purpose.
5. It was also suggested that students should not sit on the window sills and ~~be~~ on the floor of the library as the latter is one of the main points of interest to visitors and the above positions detract from its appearance.

Respectfully submitted,

Louise Carr
Secretary
