April 13, 1945

Mr. Lewis Webster Jones, President
Bennington College
Bennington, Vt.

Dear Mr. Jones:

Thank you so much for your good letter of February 20 which must have followed me through Santo Domingo and Haiti only to reach me in California!

We are always very happy to hear of Bennington and met in New York with some of the girls who were working there when we passed. Charlotte Eckhardt who is employed successfully by the Architectural Forum, I wanted to blame for some would-be funny remarks which appeared there on Bennington, but she proclaims herself innocent and was probably only the supplier of harmless raw material to the humorous editors!

I am very glad to hear how well the architectural class progresses under Mr. Czaja and extend my good wishes to you for this spring term.

Sincerely,

rjn:ms

Richard J. Neutra

May I add my greetings to Richard's letter and express the hope that you and Mrs. Jones enjoyed your winter and that she got as much writing done as she anticipated. Raymond is radiant to have his parents back.
crazily yours Neutra
