5th October 1978

Dear Mr. Shane,

By the time you receive this letter, you will have received a cable from Patrick Heron giving you the measurements of the prints that are coming to you, and a cable from us giving flight details. I am having the fifteen prints, five dating from 1970, and ten from 1973, crated today, and sent to you by airfreight, via Airborne Freight. I enclose a consignment note giving all the details about the prints, together with their retail prices, which should be used for insurance purposes. As we have had very little time, I am arranging to have the prints insured from here for the journey from London to Albany, but I should be grateful if you would arrange for insurance cover whilst they are on exhibition at Bennington College, and for their return journey to London; would you be kind enough to confirm in writing that this has been done.

As Patrick will probably have explained in his cable, the measurements shown on the enclosed consignment note are the exact measurements of the prints, but they should be framed to a larger size, since the edges of the paper should be clearly visible. I am sure you are already aware of this, but I would like to emphasise that no form of adhesive tape should be used when framing the prints.

I imagine that you will be returning the prints to us in November, but should be grateful if you could let me know in advance when they will be shipped, so that we know when to expect them.

Best wishes,
Yours sincerely,

Alan Cristea

Enc.

P.S. The 'January 1973' prints, all in editions of 72, can be identified by their copy numbers, but these are, in any case, packed in a separate parcel in the order in which they appear on the consignment note. I enclose photographs of four of the other five prints in case there should be any difficulty in identifying these.

Also at 34 Cork Street (Waddington and Tooth Galleries II) and 31 Cork Street (Waddington and Tooth Graphics)
