Wolkowitz
Light Lab: Dave Brinkman, Katie Beudert, Jes Condyles, Hery Lyon, Alex
Jones, Jessie Miglus, Jarin Schexsnider, and C. Webster Marsh

Written in 1969, *The Holy Ghostly* begins to explore many of the themes prevalent in Sam Shepard's later work: the image of the American male, the conflict between the generations, the conflicts between fathers and sons. Within *The Holy Ghostly*, Shepard experiments with what is technically possible onstage and conceptually possible within the play structure. My cast and I have worked together to create a piece that embodies his experimentation.
Enjoy.

-Gabriel Meyers

Special Thanks to all of the designers who went above and beyond, Jean Randich, Dave Norman, Abby Geoghegan who was always there to lend a much needed hand, Mike Rancourt and his full arsenal, and to anyone who helped move all that darn gravel.

-For my Father-
