AGENDA -- E.P.C.

The Educational Policies Committee would like to have the following problems made clear, with discussion on them when necessary:

1. Preparation of project vs. class work
2. More definite arrangement of how many week ends to be taken.
3. Possibility of more constructive criticism in reports.
 - a. students might feel more satisfied if definite statement could be given of actual criticism of work.
 - b. is there to be a written report sent to parents at end of each year? If so,,
4. Explanation of difference in preparation of work for Workshop and other classes. Is there an approximate number of hours to be spent in weekly preparation?
5. Late hours of Drama rehearsals.

Exact explanation of these items may be elaborated by members of the committee.
