Ms. Camille Paglia  
Bennington College  
Bennington, Vermont

Dear Camille,

This letter is to confirm our most recent telephone conversation (late Tuesday afternoon) in which we agreed that in the previous conversation (early Monday afternoon) we had mistaken each other's meanings. Your avowed intention was understood by me to be an expression of feeling rather than a plan of action. I would never condone physical violence between members of the Bennington community.

Sincerely,

Gail Thain Parker  
President
