

WAR DRIVES

In the past, it has not been customary for individual members of the Community to engage in the raising of money for charitable or for political causes. Instead, all money-raising activities were covered by the Community Chest Committee's semi-annual drives.

This policy has been re-defined by the College Council. After securing permission from the College Council, any member of the Community may now conduct a money raising drive. These drives should be cleared through the College Council in order that they may be most effectively timed as well as be conducted for a worth-while cause.

Upon completion of a drive, the amount raised should be reported to the Student Treasurer, Elizabeth Herriott, so that she and the Community Chest Committee may take this information into consideration when making up the budget for the spring and fall drives.

Eleanor Metcalf
Chairman, College Council
